“COMPUTATION OF THE MITTAG-LEFFLER FUNCTION $E_{\alpha,\beta}(z)$ AND ITS DERIVATIVE”

R. Gorenflo, J. Loutchko, Y. Luchko

published in:

Fractional Calculus & Applied Analysis **5**, No 4 (2002), 491-518

Professor Travis Oliphant from the Brigham Young University in Provo (Utah, USA) attracted authors' attention to a small misprint in the algorithm for numerical computation of the Mittag-Leffler function $E_{\alpha,\beta}(z)$ (Section 5, pp. 508-509): in the 5th line from the bottom of p. 509 division by 2 was missing in the right hand side of the formula there. Furthermore Professor Oliphant proposed to move the recursion formula (2nd line from the bottom of p. 509) to the beginning of the algorithm to make it more clear and efficient.

Here is given the corrected version of the algorithm.
