Aims and Scope

The journal "IJAM" (founded 1999) is peer-reviewed and publishes selected original research papers on wide ranges of Mathematics, as: combinatorics, design and configurations, graph theory, fractals, lattices, ordered algebraic structures, real functions, measure and integration, functions of complex variable, potential theory, integral transforms and special functions, fractional calculus, dynamical systems in their broadest sense (covering ODEs, all kinds of PDEs, FDEs, difference equations, functional equations), approximation and expansion, integral equations, operator theory, calculus of variations, optimal control, optimization, differential geometry, probability theory and stochastic processes, statistics, numerical analysis, computer science, mechanics of particle and systems, mechanics of solids, fluid mechanics, classical thermodynamics, mathematical methods in economics, operations research, programming, education in mathematics and informatics, mathematical biology, systems theory, information and communication, circuits, etc, etc.

Call for Papers

Only manuscripts typeset in standard **LaTeX** (avoid false converting software) are considered. The authors should **submit papers in electronic form by e-mail** (pdf-files upon submission, and LaTeX and figures files, after acceptance), **to the Editor-in-Chief: virginia@diogenes.bg, or ijam@diogenes.bg**, with subject: **submission to IJAM**. Alternatively, submit via a member of the Editorial Board who should recommend it, after reviewing, to the Editor-in-Chief. The corresponding author should provide full postal address and actual e-mail address for correspondence. The submitted manuscripts are considered for publication in IJAM with the understanding that the same work has not been published and is not under consideration for publication elsewhere. We are devoted to ensure timeliness of publication, by having 6 issues per year, each 2 months. **The corresponding author of each paper receives** a softcopy of the publication (pdf-file by E-mail). **The publication fees** of EUR 10 per page (in standard IJAM format) are to cover: maintaining the journal's website with **Open Online Access to contents of published issues and to full text papers** (since 2012), assigning **DOI-number to each paper and link to CrossRef** (since 2013), all expenses for handling, reviewing, editing, proofreading, publication and printing, hosting, services to ensure refereeing / indexing in Scopus and other data bases, etc.

Indexed in Scopus (Elsevier) – since Vol. 30 (2017), and next volumes:

<https://www.scimagojr.com/journalsearch.php?q=21100841738&tip=sid&clean=0>

with impact rang SJR in Q4, <https://www.scopus.com/sourceid/21100841738> .

Cover-to-Cover Reviewed in (abbrev. as: "Int. J. Appl. Math.");

Math. Rev. and MathSciNet (1999 - 2018), Zentralblatt Math. (1999 - 2016)

Indexed also in: EBSCO, AMS Digital Mathematics Registry, British Library Direct, Google Scholar and other World databases.

Harzing's Publish or Perish software finds (via Google Scholar, under ISSN 1311-1728) the following journal data (as of Oct. 2019): Citation years: 20; Papers: 962; Citations: 2605; Cites per paper: 2.71; **h-index: 19, g-index: 34**

Academic Publications

INSTRUCTIONS TO AUTHORS IN “IJAM”

First Author¹, Second Author²

¹ First Author's Address,

Street, Town - Code, COUNTRY (full postal address, in English)

e-mail: author1@yahoo.com

² Second Author's address, Street, Town, COUNTRY (in English)

e-mail: author2@math.bas.bg

Abstract: An abstract of approximately 10-15 lines. Leave two lines between the address(es) and abstract.

Math. Subj. Classification 2010: Give obligatory 2-3 Mathematics Subject Classification numbers, close to your topic (consult <http://www.ams.org/mathscinet/msc/pdfs/classifications2010.pdf>)

Key Words and Phrases: Give 3-6 key words and phrases, characterizing the topic of your research

1. Introduction

The manuscript should be prepared **only** by using the *LaTeX* processing system and in English. Use basic font: Roman **12pt size**, obligatory in **frames 12cm x 18cm**, on A4-format paper. On the first page leave 3.5 cm space on the top for the journal's headings, then type the title of the paper in capital letters bold face, leave two lines and type the authors' names and addresses, centered. Follow the model of this text.

After acceptance of the paper for publication, the authors are obliged to submit the *LaTeX-source file* and electronic *files of all figures* (in Encapsulate PostScript (EPS), PostScript (PS), or PDF-format), and resulting pdf-file of the paper. These should be sent together with the copyright form (signed by the corresponding author) and payment details by e-mail to: virginia@diogenes.bg, with subject: paper accepted in IJAM.

2. Sections, Propositions, Text and Figures

Titles of **Sections, Acknowledgment, References, Appendices** should be typed centered in bold face. **Appendices** should be indexed (A, B, ...) or enumerated (1,2,...). Acknowledgments are in special section, before References.

The paragraphs should have 18pt indent. All subheadings like **Definition, Theorem, Lemma, Remark, Example**, etc. should be indented and in bold face, the *text of the Propositions (Theorems, Lemmas, etc.) should be slanted*, the subheading *Proof*, also slanted. Indicate ends of the proofs. The references should be arranged in alphabetic order, in a style strictly according to the examples below, and cited in the text as follows: Ackeley et al. [1], Hebb [2], Smith [3].

“Int. J. Appl. Math.” (IJAM), pISSN 1311-1728, eISSN 1314-8060, founded in 1999

Subscription Rate for PRINT version only (for 1 volume / 6 issues / per year):

**Libraries / Institutions: EURO 110 or equiv. in USD; Add EURO 24 for postage (by Air Mail);
Access to online version of the papers is FREE.**

Ordering and Payments Information

The payments can be done (ask details via the Ed.-in Chief, V. Kiryakova), in one of the following ways:

1) Bank transfer in EURO (or equiv. amount of USD); 2) Western Union / Money Gram Transfer in EUR or USD. To order journal's copies (whole annual volumes only) and to obtain payment details, please send a query by e-mail, fax, or by post, to V. Kiryakova. You will receive Invoice with all necessary details and instructions for payment.

Address for Contacts

Prof. Virginia Kiryakova (Ed.-in-Chief: of IJAM), E-mail: virginia@diogenes.bg; Fax: +359-2947 86 08; Postal address: Institute of Mathematics and Informatics, Bulgarian Academy of Sciences, “Acad. G. Bontchev” Str., Block 8, Sofia - 1113, Bulgaria (This postal address can be used also for DHL or other couriers' services).
